

project: **Wombat**

Unit 3 Status Report

Date: 5/19/20
To: Mr. Kwong
From: Lucas Liang, Max Karpinsky

Subject: Status Report Week 4

Accomplishments:

- We got the basic of the game to work
 - background, mario, move
- Player movement
- Coin collection
- Background movement
- Game objects
 - mushrooms and spikes

Problems/Risks:

- Implementing player movement
- collaboration on project; sometimes we didn't fully understand what the other person was doing which messed up how the project would work
- moving the background with player simultaneously

Next Steps:

- finishing up classes
- understanding the code of our partner's parts
- debugging the code
- testing and playing around with mini Mario
- working on the final project checklist stuff
